REPLY TO RESTRICTION REQUIREMENT

In reply to the Restriction Requirement that was mailed in connection with the above-captioned application on May 28, 2009, Applicants elect the invention of Group I, claims 1-21 and 55-110. This election is made with traverse. Applicants request that the Office also examine Group II, claims 111-120, and 122, and Group III, claim 124. Groups I, II, and III represent inventions related as a product, a special process of manufacture of the product, and a process of use of the product. These claims are therefore linked by a single general inventive concept and should be considered together under PCT Rule 13.1.

Alternatively, should the Office decide not to initially examine the claims of Groups I, II, and III, Applicants request rejoinder of the claims of these groups upon an indication of allowable subject matter in connection with the examination of Group I.
